EDUCATION

NSU, Faculty of Mechanics and Mathematics
Bachelor of Applied Mathematics and Computer Science

ABOUT

I have been writing in Java since school (2015), at first I was interested in Android development, after graduating from the university I took up the backend, sometimes I write pet projects to try out new frameworks and technologies.

WORK EXPERIENCE

Senior Java developer
GT IT | September 2021 to present
- Development of a carrier portal backend built on microservice architecture (Java 8-17, Spring Boot, Spring Security, Keycloack, Spring Data JPA, Kafka, PostgreSQL, Elasticsearch)
- Participation in setting up CI/CD processes
- Statement of processes in a team and interteam
- Solving architectural issues, refactoring
